- stole
- lock
- rang

**Read the story and then answer questions 15-20 about the story.**

Lisa had an appointment with her doctor yesterday because she had a cough and didn't feel well. At the clinic, the receptionist gave her a form to fill out before seeing the doctor. During the appointment, the doctor used a thermometer to check Lisa's temperature and examined her tongue and throat with a small flashlight. He told Lisa that she had a mild throat infection and prescribed some medicine to help her recover. He also reminded her to avoid coughing on other people to prevent germs from spreading.

The doctor told Lisa to take the medicine, rest, and drink a lot of liquids, so that she would feel better in a few days. He also told her about the importance of getting a flu vaccine. She decided to schedule another appointment at the clinic to get vaccinated next week when she feels better. Lisa thanked the doctor and went to the pharmacy to pick up her medicine.

15. Why did Lisa visit the doctor?

- She needed a flu vaccine.
- She wanted to cancel her appointment.
- She felt well.
- She was coughing.

16. What did the receptionist give Lisa?

- a form
- a prescription
- a thermometer
- a flashlight

17. Where will Lisa go next week?

- to the pharmacy
- to the temple
- to a funeral
- to the clinic

18. What should Lisa avoid?

- taking medicine
- coughing on people
- getting a vaccine
- wearing a seat belt

19. What tools did the doctor use?

- a thermometer and a flashlight
- a blood pressure cuff and a scale
- a needle and thread
- a razor and an ambulance

20. What advice did the doctor give her?

- Avoid spicy foods.
- Walk with a cane.
- Get an x-ray.
- Rest and drink liquids.
